## **DETAILED ACTION**

### **Examiner's Statement of Reasons for Allowance**

1. Applicant's remarks, submitted on Nov. 03, 2008, regarding the limitation that the data-accessing password is place to a secret file set descriptor and allocated on any unoccupied space of an optical disc for independent claim 1 is found persuasive. In addition, independent claim 1 is further amended to emphasize the standard file set comprises a standard file system that includes a dummy directory tree pointing to dummy data, wherein the standard file system defines the next available address as the start of the secret file set descriptor, and the parallel file set comprising the secret file set descriptor and the real directory tree pointing to real data. As the result, none of the cited references teach or suggest the all the elements of the independent claim 1, and independent claim 1 is allowed.
2. Because of the allowable independent claim 1, all other dependent claims that depend on it are allowable.
3. No amendment may be made as a matter of right in an application after the mailing of the notice of allowance. Any amendment filed pursuant to this section must be filed before or with the payment of the issue fee, and may be entered on the recommendation of the primary examiner, approved by the Director, without withdrawing the application from issue. Please refer to MPEP § 714.16 Amendment After Notice of Allowance, 37 CFR 1.312.
